OUR PRIESTS MAKE A DIFFERENCE: STORIES OF POSITIVE IMPACT BY OUR PRIESTS

Our priests make a tremendous difference in our Diocese and in our lives as Catholics. That positive impact is extraordinary at times, like when a priest acts in the Person of Christ in the Sacraments, or when a priest visits us and our family during times of sickness or great need, or when a priest leads multiple parishes or assignments. Other times, the positive impact is felt in smaller yet profound ways, such as when a priest offers us a word of encouragement, or preaches an impactful homily, or takes the time to visit with our parish groups and ministries.

Whether in extraordinary or small yet profound ways, our priests make a great difference, and ***the Diocese would like to hear these stories of positive impact*** in order to encourage our priests in their divine vocation and on their path of holiness.

To that end, and out of a spirit of gratitude and encouragement for our priests, the Diocese is asking you to submit stories or experiences of when a priest has impacted you, your parish, or your institution. These stories can be big or small, and we encourage you to ***continue submitting your stories of impact both now and in the future.***

"One of the realities of life is that we tend to take people and things for granted. We tend to take for granted those we love and those for whom we should show appreciation. This program invites us to do just the opposite, to recognize the small or big differences our priests have made in our lives. I am sure we can all find some small actions that have impacted our lives. So, let us make it known."
~Bishop Edgar da Cunha, Bishop of Fall River
